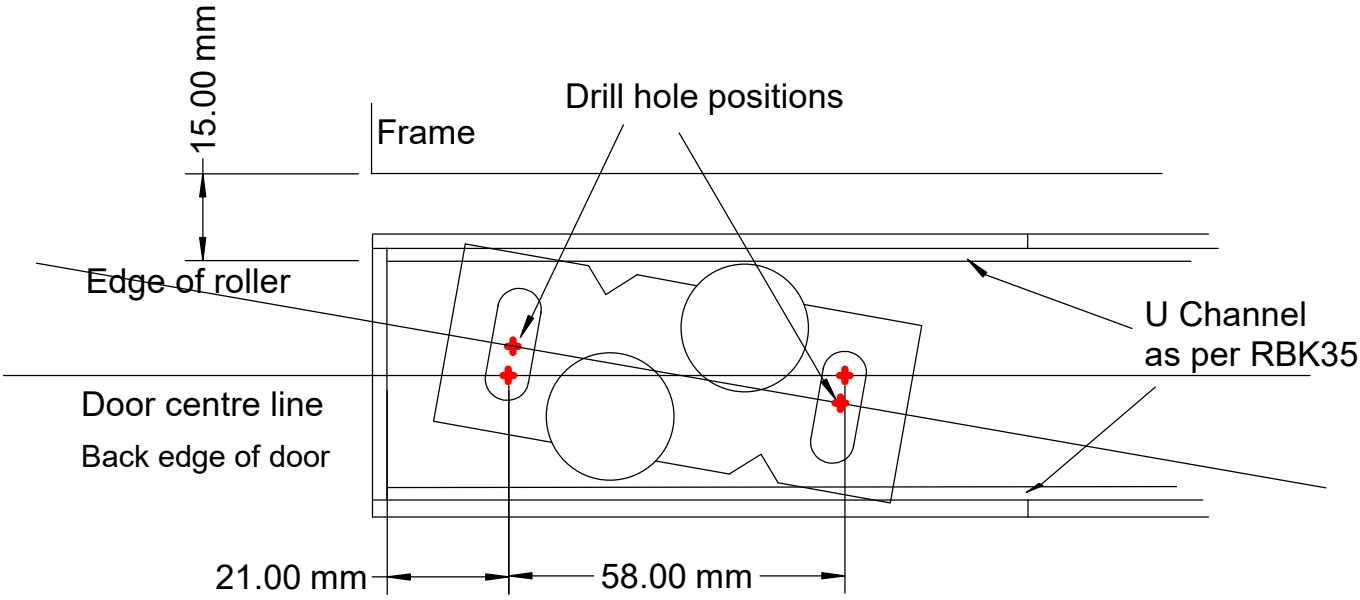
Floor guide installation for framed doors

Ensure door is plumb.
Draw centre line of door.
Place door in closed position.
Measure in 21mm from inside back edge of door and mark.
Measure 58mm from 1st hole for 2nd position and mark.
Position floor guide as per drawing and mark hole centres.



Door in fully closed position

Rotate floor guide clockwise to loosen and anticlockwise to tighten.

Rollers should just touch the inner bottom stile without pressure or binding.

A final check should be to manually move the door fully open and closed to make sure it runs freely with no binding. Must have a minimum of 2mm free play.

Always refer to website for current drawing
